

WP-600 WebPad

The WebPad, is a revolution in mobile computing. It is designed to be a productivity tool to meet the needs of mobile and corporate workers. It satisfies stringent enterprise demands by offering maximum mobility with uncompromising performance, reliability and battery life. The key advantages that it comes with include –

- Sleek and Compact Design
- PCMCIA Slot for Modem, ISDN, Cable Modem, xDSL and Wireless LAN
- Excellent Video and Graphics quality
- WirelessLAN on-board
- Software Keyboard
- Maintenance free Embedded Linux
- Multiple language support
- Complete Browser experience with Mozilla with all plug-ins

Hardware Specifications

Processor : Transmeta TM 5800

System Memory : 128MB

32MB Disk-on-Chip, w/o OS

Display : 10.4 inch 800x600 TFT LCD touchscreen

Video : Radeon

Audio : AC97

Ethernet : 10/100 Ethernet LAN

Wireless LAN : Intersil Prism II

Extension : One PCMCIA Slot

I/O : USB, Headphone, VGA Out, IrDA

Battery : Lithium Ion Battery allows 3 hours operation

Weight : 1.4 Kgs

Software Feature List

Operating System : Linux 2.4.x

Browser : Mozilla

Browser Software Specifications and Add Ons

- HTML 4.0
- Javascript 1.1.8
- Frames, Tables, cascading style sheets
- JVM, SSL, XML and DOM
- Up to 128 bit encryption
 - News Reader
 - Yahoo Messenger
 - Acrobat Reader
 - Flash Player
 - Real Player
 - MP3 Player

Software Filesystems :

- Flash
- MS DOS
- FAT FS
- NTFS
- NFS
- Novell File System
- Unix File System
- QNX File System

Display Resolutions :

- 640x480

TCP/IP Functionality :

- ftp
- telnet
- rsh
- pppd
- slip
- routing
- DNS support
- Ping

Email Functionality :

- POP3
- IMAP4
- SMTP

JVM Support :

Works with JDK 1.1.8 or higher

Other Software :

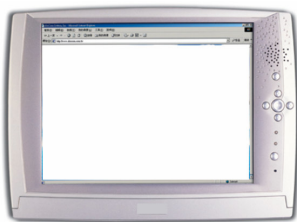

- RDP
- ICA
- Calendar
- Word Processor
- Appointment Diary
- Phonebook
